Module 1: Foundations of NLP

Building Your NLP Foundation (10 Hours)

Begin your transformative journey with the core principles that underpin all NLP practice. This foundational module establishes the historical context, scope, and career applications of Neuro-Linguistic Programming while introducing you to the fundamental presuppositions that guide effective practice.

- **Introduction to NLP:** History, scope & career applications
- **Core Presuppositions:** The guiding principles of NLP practice
- **Communication Model:** Understanding how we process information
- **Sensory Acuity:** Developing heightened awareness (VAKOG)
- **Anchoring Basics:** Installing positive emotional states

Master the fundamental building blocks that will support all advanced techniques throughout your NLP journey.

Key Focus: Establishing strong foundational knowledge and practical skills for immediate application in personal and professional contexts.

Modules 2 & 3: Advanced Language & Therapeutic Techniques

Language & Mind Patterns (10 Hours)

Master the sophisticated language patterns that create profound change. Learn Meta Model questioning to challenge limiting beliefs, Milton Model hypnotic patterns for influence, and advanced reframing techniques. Develop Sleight of Mouth persuasive skills and submodalities work for changing internal representations.

Advanced Techniques & Therapy (10 Hours)

Dive deep into powerful therapeutic applications including the Swish Pattern for behavior change, Timeline Therapy for healing past traumas, and Parts Integration for resolving internal conflicts. Master advanced anchoring for confidence and motivation, plus strategic thinking patterns for learning and decision-making.

These modules transform you from a beginner into a skilled practitioner capable of facilitating profound personal transformation in yourself and others.

Modules 4 & 5: Real-World Applications & Monetization

NLP in Practice (10 Hours)

Apply your skills across diverse professional contexts:

- **Therapy & Coaching:** Address anxiety, phobias, and depression
- **Relationships:** Master communication and connection
- **Business & Sales:** Excel in negotiation and influence
- **Education:** Accelerate learning and study skills
- **Public Speaking:** Build confidence and influence

Monetization & Mastery (10 Hours)

Transform your skills into sustainable income:

- **Building Practice:** Launch your coaching/training business
- **Corporate Workshops:** Design high-value training programs
- **Leadership & HR:** Apply NLP in organizational contexts
- **Digital Products:** Create online programs and courses
- **Capstone Project:** Case studies and career roadmap

Master These Transformative Skills

Rapid Rapport & Persuasion

Build instant connections and influence others ethically through advanced communication techniques and unconscious rapport-building strategies.

Advanced Communication Models

Utilize Meta Model and Milton Model language patterns to facilitate breakthrough conversations and therapeutic interventions.

Business Applications

Leverage NLP for sales excellence, negotiation mastery, leadership development, and organizational transformation.

Emotional State Management

Master anchoring, reframing, and Swish patterns to help clients achieve optimal emotional states and overcome limiting patterns.

Trauma & Phobia Relief

Apply specialized NLP interventions for rapid resolution of phobias, traumas, and deeply rooted emotional challenges.

Workshop Design

Create compelling training programs and digital courses that deliver measurable results for diverse audiences.

Career Pathways & Professional Opportunities

01

NLP Practitioner & Life Coach

Launch your private practice offering one-on-one coaching sessions for personal transformation, goal achievement, and breakthrough results. Work with clients on confidence, relationships, career transitions, and life purpose.

02
